## Check Cossack Hordes in America with the Ballot

N the elections of 1912, twenty-two Scolelists were elected to nine different state legislatures, and human freedom made new and greater progress in America. It is again within the power of the workers this fall to vote the gun and the club of the police, the militie and the privately owned assassin, aut of the hands of the employing cless. Here is the story telling how Scialists fight for the workers after alection. Kirpatrick tells you about the growing danger from "The American Cossack."

When the non-Socialist political candidate is elected to office, he immediately sets out to violata every promise he has made to effected and protect the interests of the great mass of the people. He immediately becomes the political slave of "the system."

Tha fight of James H. Maurer, Socialist, elected to the legislature of Pennsylvania in 1910, in behalf of the toiling masses of this corpora-

tion owned etate, le but one record showing how Socialiets remain true to their promises to keep the feith with the working class.

It shows why the workers of every state in the netion should put a big Socialist delegation into avery legis-

lature.

Maurer was planning to fight the state constabulary just as soon as the state legislature began its seed with the apperience of Panney ranking subjects of the United and mardered when they had gone out on etrike. During his two years in the state legislature Maurer proved a haiwark against the spread of this form of legel cubjugation of a free people to other tystes.

## **Crushing Political Activity**

EVERY constitutionel and political right worthy of the name was trempled under foot by the United States government when its civil service commission issued the order, forbidding government job holders from angeging in political ectivity as follows:

The blow was struck when the United States Civil Service Commission recently put up a brilliant red and blue poster in conspicuous places in all the federal buildings of the nation, issuing e so ceiled "WARNING AGAINST ACTIVITY IN POLITICS BY FEDERAL OFFICERS AND EMPLOYES."

This "WARNING" crucifics every political right except the single privilege of ceeting ones ballot if you ero an employe of Uncle Sam you cennot work for your political beliefs.

#### Glow at Socielist Party

It is a staggering blow at the So latist Party. It cuts off the growing number of Socialists in the civil service of the United States gov-ernment from becoming active in the Social-ist political compaign and in building up the Socialist Party and the Socialist movement. The Arierican Socialist believes that the best way, o fight this evil is through publicity. Read the "Forms of Political Activity Forbidden." pt lished in en adjoinning column, and ask yont elf, "How would i like to have my boss issue an order like thet to me?" Yet that

boss issue an order like thet to me?" Yet that is what the United States government, which ought to be a model employer, is doing.

Then read the protest of the Socialist Party Committee on immediate Action which counds the key note of the fight against this pernicious ruling of the civil service commission. This commission declere that its list includes only, "Some of the forms of ectivity held to be forbidden." In its Russienization of the civil service it adds the following warning, "it is not to be assumed that other forms of political activity are permissible because of political activity are permissible because

This makes every Socialist in the civil service the terget of those holding opposing political beliefs. it mekes it almost impossible for a Socialist to hold his job in the employ of the United States government. Editorial and Business Office of the Vorwerts. RAILROADS WIN-OF COURSE!

N the first page of last week's issue of the American Socialist there was an-appeal urging all readers to, "Look for the "Sub" blank!"

We had hoped to have inserted in every copy of last week's issue of The American Socialist a subscription blank. But we did not succeed. Now we want to tell you why.

You didn't find your "sub" blank in your paper because the post office authorities, under the rule of the labor hating democratic administration, claim that the union label is "advertising" and command that the union label must not appear on a subscription blanks inserted in The American Socialist.

Can you beat it? The printers' union label, one of the emblems of organized working class effort to achieve greater human freedom, is put on a par with requests to "Use Sapolio" or "Lat Grape

In its fight to submerge the dollar and raise humanity, The American Socialist forgot for the moment the bitter hostility that confronts every forward move the working class seeks to make.

The "sub" blanks innocently pearing the union label (all Socialist Party printing carries the union label), were inserted in this issue of The American Socialist and sent to the Canal Street post of-

fice in Chicago. There the entire issue was held up until all of the "sub blanks" had been taken out. That is why you didn't get your "sub" blank in your American Socialist last week and that is why your paper was late in reaching you. That is why you were robbed of this opportunity to help build up your press and aid in overthrowing a government that has the dollar mark as its label and scoffs at every human endeavor.

Yet this is what every worker must expect as long as the capitalist system lasts. Don't blame the post office officials. They are only doing their duty as servants of the present democratic administration under the existing capitalist system. The workers are to blame for tolerating this system. They alone have the power to change it.

Roosevelt fought the printers' union in the big government printing office at Washington, Democrate republicans and progressives in office claim they can't stand for the union label because it is 'unconstitutional" and "class legislation"

Yet every time Socialists have come into control of hamlet, township, city or county, They have successium victorial use of the union label wherever possible. And they will continue to do so in the future as they capture the states and

This war of the capitalistic soverment under which we live against the union label but duplicates the war waged by capitalism's political puppets against the United Mine Workers of America, for Instance, in West Virginia and Colorado, when the miners' officials were indicted under the Sherman anti-trust law.

The position taken was that the great organizations of men banded together in the miners' union fighting for human rights and human liberties, was no different than the great organization of dollars known as the Beef Trust, the Oil Trust or the Steel Trust, warring against all human rights and bleeding humanity white through exploitation. But the fight must go on. Only the

form of attack shifts. Instead of inserting "sub" blank we are this week publishing it in the paper. It takes up valuable space but we feel that it is well worth while if every reader clips it out, pastes it on ruleu paper and then goes out among his fellow workers at I gets their subscriptions.

The longer your list of "subs" hecomes the bigger will be the blow at this criminal system of society that places the in terms would reclaise and less amore with human welfare and the happiness of you and your children. LOOK FOR THE "SUB" BLANK ON

ATTACKING SOCIALISM. Before the war in Europe started the newspapers and magazinee of this country, owned or subsidized for the purpose of combatting the growing etrength and solidarity of

organized labor, spent much energy in attacking Socialism. It was not to be expected that the European war would bring this campain of micrepresentation to an end. It hasn't. The war only furnishes the anti-Socialist with new texts. It portunity to invent arguments to belwark the citadel of the big busi-ness interests that hire him.

While carrying on its propagan-de to enlighten and educate the masses the Socialist movement must halt occassionally to reply to a lie mate occasionally to reply to a lie or to correct misrepresentation. We one can regret more than the Sesialists themselves that the Socia-list movement was not able to pre-

want the war in Europe. There was mothing wrong with its principles. Its philosophy was not at fault. Secialism did not prevent the war in Europe because its held upon the people of Servia, Austria-Hungary, Russia, Germany, Belgium, France, England and Japan was not powerful enough to etop the heading plunge into the bloody shambles. APITALISM has done its worst. A Nationally, in the face of marching armies of unemployed,

swiftly mounting prices, of ever increasing concentration of industry, of most bitter war upon organised labor, of millions of industry, of most bitter war upon organised labor, of millions of people in a poverty that does not permit of healthy animal axistence, congress is about to close one of the longest sessions ever ped the vitality of their children people.

Yet when ... camps ; was in progress that led to the election of the present members of congress and of the present national administration the voters were told that the trusts and high prices were the most important questions of the day.

There were profuse promiseses that trust magnates would be jailed and extortioners hanged on gallows "high as Haman's" unless relief came to the people. The trusts are still hera. High prices coal and iron police, deputy sheriffs are giving way to higher prices daily. No one has been hanged and the national guards, who, in the or imprisoned, and no measures of relief have been enacted.

Internationally, capitalism has hurled almost half the world into a whirlwind of passion, of bloodshed, of destruction such as the whole history of mankind from savagery to capitalism can not parallel.

For each and every one of these evils Socialism comes with message of relief, and the only message of relief.

For the unemployed the Socialist offers work and the product of that work, by methods whose ability to solve tha problem
